PLAY
WITH
YOUR
INNER
CHILD

Introduction:

Children playing with their parents are happier and creative. These children are more successful in school.

Technology:

Before children used to play more with their parents, but nowadays, with the increase of new technological gadgets we interact less and less with them, and viceversa.

We are stuck on our mobile screen and we concentrate less on people around, us which means that there is less communication inside our families

Your inner child;

Remember when you were a child... Treat your children as you liked to be treated then. Play with them!

Coexists with your child, try to find some free time for him/ her and let them know you care.

PLAY NOW:

Play with your child sometimes will help you to set the relationship with your child, to help them later with homework and exams.
